### **DETAILED ACTION**

Claims 1-16 are pending of which claims 1, 7, 9, 13 and 14 are independent claims and claims 5, 6 and 16 are multiple dependent claims.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not seen how the recognizing step as recited is able to determine whether or not the first device was assigned a nickname at a time of manufacture of the first device. The claims fail to recite how that would affect the selecting of a nickname.

#### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fujimori (USP 7,009,942) in view of Fellman (6,980,990).

Details of the rejections have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

## **Response**

Applicants relied on the newly inserted “wherein clause” for patentability. More specifically, Applicants contended that the applied references do not teach that the recognizing step as recited in the claims include determining that the first device was not assigned a nickname at a time of manufacture of the first device to be provided to the network. The newly inserted “wherein clause” merely consists of non-functional descriptive material. The recitation in the “wherein clause” has no effect on other steps. The selection step and the registering step have no effect on whether or not a nickname was assigned at a time of manufacture of the first device.
